

PRESS RELEASE

Paris, 1 June 2023

| LWA reinforces its Business Litigation practice with the arrival of Coline Warin and her team |

LWA Litigation Team, from left to right: *Claire Decoux-Laroudie (Counsel); Coline Warin (Partner); Raphaëlle Meuters (Lawyer); Bertille Lacau (Lawyer); Chantal Cordier-Vasseur (Partner)*

In order to reinforce its practice in the context of an increasing judicialization of corporate life, Chantal Cordier-Vasseur, Partner of the Business Litigation practice, and all the members of the LWA Firm are pleased to announce the arrival of Coline Warin in a capacity as Partner, accompanied by her colleague Bertille Lacau.

Acting in capacity as lawyer for over eighteen years, Coline Warin graduated with a specialised higher education degree (D.E.S.S.) in Business and Tax Law obtained at Université Paris II Panthéon-Assas (2003) and is a Mediator approved by the Paris Mediation and Arbitration Centre (2017).

Coline assists and represents companies in all litigation cases with which they can be faced, upstream, during the prelitigation stage, or downstream, after a referral to the courts. She advises French and foreign groups, start-ups, intermediate-sized enterprises, small and medium-sized companies, investment funds, as well as their senior managers and shareholders.

She has developed specific experience in shareholder disputes and M&A litigation and intervenes in the optical, retail and mass distribution, defence, biotech, agrifood and industry sectors.

Coline is assisted by her colleague **Bertille Lacau**, Lawyer at the Paris Bar since 2021; Bertille has graduated with a Master 2 degree in Business Law obtained at Paris 1 Panthéon-Sorbonne and a Master of Laws-LLM obtained at Trinity College Dublin (2019).

"The law firm Latournerie Wolfrom Avocats was an obvious choice for me. Other than its excellent reputation on the market, LWA will enable me to introduce a cross-sectional expertise and benefit, when processing the most complex litigation cases, from the support of lawyers who are amongst the most recognised in their practices. The Litigation Practice, which will comprise five individuals and that I will be comanaging with Chantal Cordier Vasseur, will be in a position to offer assistance for any type of litigation, in particular, those that are the most strategic. This offer is moreover fully secured, as the firm has equipped itself with a sturdy IT system ensuring the full confidentiality of the files and a perfect protection of the data entrusted to us." Coline Warin.

"We are delighted to welcome Coline with whom we discussed very often during the past months, which led us to the acknowledgment that we shared an identical perspective regarding the evolution of business litigation, an identical approach of the matters and a common ambition for the practice. She will of course be a centrepiece in this practice and her arrival, accompanied by Bertille, enables us to considerably reinforce our fighting strength in this practice" Chantal Cordier-Vasseur.

"The arrival of Coline and Bertille confirm the dynamism and attractiveness of the Firm, for the purpose of meeting the requirements of our clients. We are delighted" indicate Amélie d'Heilly and Marion Delaigue, co-managers of the Firm.
